

EDUCATION

B.E (EEE) – Sri Eshwar College of Engineering CGPA : 7.9 (upto 5th sem)	2023-2027
HSC – ISC – Vikasa School 76%	2021-2023
SSLC – ICSE - Vikasa School 86	2020-2021

INTERNSHIPS

Technology Intern – Global Technologies (July 2025)

Worked on data workflow automation and system integration using tools such as Airflow, Spark, and Apache NiFi. Gained hands-on exposure to data pipelines, system reliability, and large-scale processing concepts, with emphasis on understanding end-to-end data flow rather than deep specialization.

MERN Stack Intern – RV Tech (January 2025)

Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Built RESTful APIs and responsive user interfaces, focusing on clean architecture, scalability, and real-world deployment practices.

PROJECTS

JAVA + JDBC BANKING APPLICATION : Developed Java Based console apps for banking and event management. Integrated persistent storage with JDBC and MySQL. Employed OOP concepts and exception handling for modular design.

SMART SOIL MOISTURE SYSTEM : Developed an automated IoT System using Esp8266 to monitor real time soil moisture levels and improve irrigation. Leveraged Blynk and Thingspeak cloud platforms for the data visualization and remote monitoring, incorporating a dual alert mechanism to reduce water wastage and prevent plant stress through timely alerts.

CAMPUS-LINK : Built a centralized platform to streamline campus communication, utilities, and peer learning. Structured system architecture emphasizing scalability, responsiveness, and real-time information flow, translating engineering problem statements into practical digital solutions.

Technologies: *React.js, Firebase, Web Architecture, REST APIs* | [Github](#) | [Link](#)

ACHIEVEMENTS

Award for Sustainable Influencer – IGEN Institute

Freshathon: Shortlisted among the Top 10 teams out of 250 and secured 1st place at the department level, awarded for problem-solving, innovation, and teamwork.

Zeroth-Day Hackathon: Secured 3rd place at the college level, shortlisted among the top 50 teams out of 85 for building an impactful technical solution.

CERTIFICATIONS

Introduction to Internet of Things (IoT) | **NPTEL**

Simulink onramp | **Matlab**

SmartGrid: Basics to Advanced | **NPTEL**

C Intermediate | **SoloLearn**

SKILLS

Programming Languages: C

Frontend Development: HTML, CSS

Databases: MySQL

Developer Tools: Git, GitHub, VS Code

Soft Skills: Communication, Problem Solving, Critical Thinking, Leadership, Teamwork, Time Management
