INTERNSHIP EXPERIENCES

MERN STACK - Better Tomorrow	2024
Applied MERN Stack expertise in the Better Tomorrow project to develop secure APIs and implement database connections for user authentication in dynamic web applications, collaborating within a team to gain hands-on experience with modern technologies.	
CLOUD ENGINEER - Viruzverse Solutions	2025
I worked as a Cloud Intern at Viruzverse Solutions from June 21, 2025 to January 21, 2026, gaining hands-on experience in cloud technologies and deployment. During this period, I was exposed to real-industry practices and modern cloud environments. This internship helped me build strong technical skills and practical knowledge in cloud computing.	

SKILLS ACQUIRED:

Frontend : HTML, CSS, JavaScript, ReactJS, React Native, TailwindCSS, Bootstrap
Backend : Node.js, Express.js, REST APIs, MongoDB, MySQL, Authentication & Authorization
Cloud : AWS EC2, AWS Amplify, AWS Lambda (Serverless), Amazon S3, CloudFront, Cloud Deployment
Tools & Platforms : Git, GitHub, Postman, VS Code
Concepts : Database Integration, API Development, Responsive Web Design, Cloud Infrastructure, Team Collaboration

PROJECTS

IdeAura - Innovative Project Idea Discovery & Management Platform	2025
Developed a website called IdeAura that offers project ideas across software, hardware, and IoT categories, each with options for fully developed, partially developed, and yet-to-be-developed ideas, featuring separate dashboards for admin and users.	
BodyOS - Personalized Nutrition & Recipe Management Web App	2025
Applied MERN Stack expertise in the Better Tomorrow project to develop secure APIs and implement database connections for user authentication in dynamic web applications, collaborating within a team to gain hands-on experience with modern technologies.	
DocXplorer AI - Intelligent Document Analysis & Semantic Search Platform	2024
Developed DocXplorer AI, an ML-powered web application for intelligent document analysis and semantic search. Implemented chatbot-based querying and semantic search to retrieve relevant information from uploaded documents without exact keyword matching. Integrated document collections, API key management, and embeddable widget support to improve accessibility and efficiency.
